Caffeine Extraction Required Data

Due one week after the experiment (individually to section TA, “representative example” for inter-group exchange). Include as heading: Names of Group Members, Dates Experiment was Performed.

1. Tabulate experimental values
   a. Adjusted Variables
   b. Time
   c. Absorbance

2. Plot Absorbance versus time for every adjusted variable

3. Plot Concentration versus time for each adjusted variable

4. Determine effects of adjusted variables
